

## Baby Powder Uses

**Repel ants.** Sprinkle Baby Powder in cracks, along a window sill, or under doors where ants enter. Ants will not walk through baby powder.

**Help rubber gloves slip on easily.** Sprinkle Baby Powder inside the gloves.

**Give your dog a dry shampoo.** Rub Baby Powder into your dog's fur, wait a few minutes, then brush out.

**Keep shoes and sneakers dry and comfortable.** Dust the insides with Baby Powder.

**Prevent sticky sheets on a hot, summer night.** Sprinkle Baby Powder between the sheets to absorb perspiration.

**Give your hair a dry shampoo.** Work Baby Powder into your hair, and then brush out.

**Clean sand off wet skin.** Sprinkle Baby Powder on skin to remove moisture, and the sand virtually falls off by itself.

**Untangle a chain necklace.** Dusting the chain with Baby Powder will make it easier to untangle.

**Soften rough hands.** Apply Baby Powder as you would hand lotion.

**Prevent friction burns when shaving your legs with an electric razor.** Dust legs lightly with Baby Powder before shaving.
