

## **Biz and Simple Green**

1/4 cup Biz (enzyme laundry additive. I use the powder)

1/4 cup Simple Green

in a 1 liter spritz bottle

add warm water, shake until dissolved

It's the best household cleaner I've come up with! Cheap to make and very "green". Non toxic unless you breathe the mist.

I double the recipe for a gallon and add more if it's a really dirty situation.

It's also the best remedy I know of for SKUNK
